Toolkit

KEY FEATURES

- Winner of the Queen's Award for Technological Achievement.
- Finds known and unknown viruses.
- NTFS long file name support.
- Scans inside ZIP, ARJ, PKLite, LZExe, ARC, ICE and DIET files.
- Includes Advanced Heuristic Analysis.
- 100% positive identification of encrypted polymorphic viruses.
- Achieves speeds of up to 7MB per second.
- Free technical support, 24 hours a day, 7 days a week. Support available via CompuServe and the Internet.

SYSTEM REQUIREMENTS

- Windows NT V3.5 or above

S&S INTERNATIONAL
LICENCE STATEMENT AND LIMITED WARRANTY

THIS LEGAL DOCUMENT IS AN AGREEMENT BETWEEN YOU, THE USER, AND S&S INTERNATIONAL PLC. BY USING THIS SOFTWARE, YOU ARE AGREEING TO BE BOUND BY THE TERMS OF THIS AGREEMENT, WHICH INCLUDES THE SOFTWARE LICENCE, LIMITED WARRANTY AND ACKNOWLEDGEMENT.

IF YOU DO NOT AGREE TO THE TERMS OF THIS AGREEMENT YOU SHOULD PROMPTLY RETURN THE DISKETTE(S) AND OTHER ITEMS (INCLUDING WRITTEN MATERIALS, BINDERS OR OTHER CONTAINERS, AND HARDWARE, IF ANY) WHICH ARE PART OF THIS PRODUCT TO THE PLACE WHERE YOU OBTAINED THEM FOR A FULL REFUND.

In order to preserve and protect its rights under applicable laws, S&S International does not sell any rights in the enclosed software. Rather, S&S International grants the right to use this software by means of a software licence. S&S International specifically retains title to all its computer software.

This software is protected by both United Kingdom copyright law and international copyright treaty provisions. Therefore, you must treat this software just like a book, except that you may copy it onto a computer to be used, and you may make archival copies of the software for the sole purpose of backing up S&S International software and protecting your investment from loss.

By saying "just like a book", S&S International means, for example, that this software may be used by any number of people, and may be freely moved from one computer location to another, so long as there is no possibility of it being used at one location while it is being used at another or on a computer network by more than one user at one location. Just as a book cannot be read by two different people in two different places at the same time, neither can the software be used by two different people in two different places at the same time (unless, of course, you have violated S&S International's copyright).

S&S International PLC ("S&S") warrants the physical diskette(s) and physical documentation enclosed herein (but not any diskettes or documentation distributed by you) to be free of defects in materials and workmanship for a period of sixty days from the date of purchase. If S&S receives notification within the warranty period of defects in materials or workmanship, and such notification is determined by S&S to be correct, S&S will replace the defective diskette(s) or documentation. DO NOT RETURN ANY PRODUCT UNTIL YOU HAVE CALLED THE S&S SALES DEPARTMENT AND OBTAINED A RETURN AUTHORISATION NUMBER.

The entire and exclusive liability and remedy for breach of this limited warranty shall be limited to the replacement of defective diskette(s) or documentation and shall not include or extend to any claim for or right to recover any other damages, including but not limited to loss of profit, data, or use of the software, or special, incidental, or consequential damages or other similar claims, even if S&S has been specifically advised of the possibility of such damages. In no event will S&S's liability for any damages to you or any other person ever exceed the lower of suggested list price or actual price paid for the licence to use the software, regardless of any form of the claim.

DR SOLOMON'S

S&S SPECIFICALLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Specifically, S&S makes no representation or warranty that the software is fit for any particular purpose and any implied warranty of merchantability is limited to the sixty day duration of the limited warranty covering the physical diskette(s) and physical documentation only (and not the software) and is otherwise expressly and specifically disclaimed.

This limited warranty gives you specific legal rights; you may have others which vary from country to country. Some countries do not allow the exclusion of incidental or consequential damages, or the limitation on how long an implied warranty lasts, so some of the above may not apply to you.

GENERAL LAW AND GOVERNING PROVISIONS

This licence statement shall be construed, interpreted and governed by the laws of the United Kingdom. If any provision of this statement is found to be void or unenforceable, it will not affect the validity of the balance of this statement, which shall remain valid and enforceable according to its terms. If any remedy provided is determined to have failed of its essential purpose, all limitations of liability and exclusions of damages set forth in the limited warranty shall remain in full force and effect. This statement may only be modified in writing signed by you and an authorised officer of S&S. All rights not specifically granted in this statement are reserved by S&S.

BY OPENING THIS ENVELOPE AND USING THE ENCLOSED SOFTWARE, YOU ARE ACKNOWLEDGING THAT YOU HAVE READ THIS LICENCE AND LIMITED WARRANTY, UNDERSTAND THEM, AND AGREE TO BE BOUND BY THEIR TERMS AND CONDITIONS. YOU ALSO AGREE THAT THE LICENCE AND LIMITED WARRANTY ARE THE COMPLETE AND EXCLUSIVE STATEMENT OF AGREEMENT BETWEEN THE PARTIES AND SUPERSEDE ALL PROPOSALS OR PRIOR AGREEMENTS, WHETHER ORAL OR WRITTEN, AND ANY OTHER COMMUNICATIONS BETWEEN THE PARTIES RELATING TO THE SUBJECT MATTER OF THE LICENCE OR LIMITED WARRANTY.

about your organisation

To assist us in continuing to develop appropriate software for your requirements, please could you spend a couple of minutes answering the following questions.

What is the principal activity of your organisation?

☐ Finance ☐ Education ☐ Government

☐ Manufacturing ☐ Retail ☐ Aerospace/Defence

☐ F.M.C.G. ☐ Healthcare ☐ IT and related

☐ Other (specify):

_____

How many employees are there in your organisation?

☐ 1-10 ☐ 11-100 ☐ 101-250

☐ 251-500 ☐ 501-1000 ☐ 1001+

How many PCs are there in your organisation?

☐ 1-10 ☐ 11-100 ☐ 101-250

☐ 251-500 ☐ 501-1000 ☐ 1001+

What is the main type of PC your company uses?

☐ IBM and compatible PCs ☐ Macintosh ☐ Other (specify)

_____

What percentage of PCs are connected to a network?

_____

Which operating systems are in use in your organisation?

☐ DOS ☐ Windows ☐ OS/2

☐ Windows NT ☐ Novell 3.x ☐ UNIX

☐ Windows for Workgroups ☐ Novell 4.x ☐ Windows 95

☐ Macintosh ☐ Other (specify)

DR SOLOMON'S

Dear Toolkit User

Important: Changes to the Windows NT Scheduler

The Windows NT Workstation Toolkit Scheduler now uses the Registry to store its schedule data. This brings the Windows NT Workstation Toolkit software into line with the Microsoft Windows NT application design guidelines. The change has a number of knock-on effects to the features and behaviour of the software.

These effects are:

The New, Open, Save As and Save commands on the file menu have been removed, as have the Open and Save buttons on the Toolbar.

The old text based schedule data file (.SDF) is no longer used. Any schedule data that you have set up in these files will be automatically migrated to the Registry when you run the Setup program.

Users with non-administrative rights are now restricted to only 'Run FindVirus' and 'Send Message' event types.

You may no longer save and configure multiple schedule files for a single machine. Similarly, configuring schedule files on remote workstations is no longer possible.

Finally, if you were distributing copies of SDF file to remote machines in order to perform remote scheduling, please call our Technical Support number for advice.

The Dr Solomon's Windows NT Toolkit manual will be updated to reflect these changes in version 7.66. Meanwhile, an advance copy of the chapter describing the new features can be seen on our web site (http://www.drsolomon.com/avtk/ntchap6.html). Alternatively, contact us on 01296 318700 and we will send you a copy.

Regards,

The Toolkit Team

INSTRUCTIONS FOR USING DR SOLOMON'S MAGIC BULLET

Dr Solomon's Magic Bullet is a bootable diskette containing FindVirus. The product has been designed to run on any system that has a FAT based file system like DOS, OS/2, Windows, Windows 95 and Windows NT systems using a FAT. **THE MAGIC BULLET IS NOT COMPATIBLE WITH THE NTFS AND HPFS FILE SYSTEMS WHICH ARE AVAILABLE UNDER WINDOWS NT AND OS/2.**

Please Note: If you are using a compressed drive (or any specialist hardware for example, anything that uses non DOS drivers) you will NOT be able to use Magic Bullet. You should boot from a clean, write-protected, DOS system diskette with the relevant drivers and then run FindVirus from your Magic Bullet disk. Please refer to your Toolkit manual for more information.

When do I use the Magic Bullet ?
We always recommend that when scanning your local hard disk for viruses or attempting to remove an infection you should boot from a clean (virus free), write-protected , DOS system diskette. In many cases such a disk is not available so Dr Solomon's has provided one for you, the Magic Bullet. Instructions for using the Magic Bullet are described below:

1) Switch off the computer, wait for five seconds.

2) Insert the Magic Bullet diskette in drive A and then switch on the computer.
Note: You will briefly see the message 'Starting Dr Solomon's Magic Bullet', then the user interface appears.

The Magic Bullet user interface provides the following options:

F2 - Selecting F2 will start a scan of all executable files (including files which may contain macro viruses) on the local hard disk(s). Use this option to scan you hard drive for viruses.

F3 - Selecting F3 will start a scan of all files (including data files) on the local hard disk(s). Use this option to run a thorough scan of a hard disk and establish whether the disk is clean.

F4 - Selecting F4 will start a scan of all files stored on the local hard disk(s) and remove any viruses that are found. Having removed a virus you should then scan the drive again using the Find All option selected by pressing F3. Use this option once you have identified that a drive is infected.

Esc - Exits the Magic Bullet interface. After selecting this option you will be asked if you want to restart your computer. If you wish to exit Magic Bullet, you should remove the Magic Bullet disk from the drive and select OK. Selecting Cancel will return you to the user interface.

For information about using other elements of the Anti-Virus Toolkit please refer to your Toolkit manual.

What other services can you enjoy on CompuServe?

When you connect your computer to CompuServe you are joining the world's largest network of people with personal computers. You will have access to around three million members and over 2,000 services offering a source of technical support, business information, entertainment and communications. You'll be amazed at the possibilities, including:

- technical support from 800 computing hardware and software companies
- software libraries
- access to the Internet
- industry news
- news wires
- interactive conferences
- education
- investments
- games
- hobbies
- global flight schedules
- electronic mail
- fax and telex
- company reports
- hotel listings
- medical reports

... and much more.

S&S
INTERNATIONAL PLC

On-line Dr Solomon's expertise

CompuServe: information at your fingertips

CompuServe is a world-wide information service for users of personal computers. The information available on-line is split into Forums for special interest groups. Each Forum contains the following:

Message Board
Library
Conference Room

To help you find what you are looking for, each Forum collects together like topics into Sections.

The Dr Solomon's Section is used by people with a wide range of skills and experience. They gather on-line for professional software support, to share information with other users, and to keep up-to-date with Dr Solomon's news and product information.

You can enjoy all of this too, by joining the Dr Solomon's Section on CompuServe.

Support for all Dr Solomon's products

The entire range of products is supported by the Dr Solomon's CompuServe Section - including the Anti-Virus Toolkit and other security products.

Dr Solomon's products are produced and marketed by:

S&S International PLC
S&S Software International Inc.
S&S Deutschland GmbH

Take advantage of specialist support

The Dr Solomon's Section provides customers with access to the highest quality support. This includes news and advice on all the issues relevant to Dr Solomon's products and services.

From the Dr Solomon's Section *Library* you can access files that will help you in using your software. These include demonstration software, technical notes, common questions and answers, and much more.

Download and enjoy the *Library* files and share any helpful files you have.

Support from other users

Through the Dr Solomon's Section you will also benefit from communicating with other users. Post messages on the product *Message Boards* to discuss problems, and obtain independent and objective feedback from other Dr Solomon's users who may have had similar experiences to yours. And you will be able to lend your expertise to others.

Enjoy these benefits

By joining the Dr Solomon's Section on CompuServe, you will enjoy:

- direct access to Dr Solomon's support staff
- assistance from the community of other Dr Solomon's product users
- Dr Solomon's product information
- first access to product drivers, patches, fixes, etc.

Try the Dr Solomon's Section - free of charge

As a Dr Solomon's user you are entitled to a free introductory membership of CompuServe. This includes:

- *a private User ID number and password*
- *approximately £10 of FREE on-line connect time*
- *CompuServe Information Manager for Windows communications software*
- *first month's use of the 100 basic services FREE (worth approximately £6.50)*
- *FREE subscription to the CompuServe magazine when you become a member*
- *FREE CompuServe member support.*

Start connecting with Dr Solomon's users and other CompuServe members. Call 0800 289378 (UK only) or +44 117 976 0681(all other countries), or complete and return this reply paid card. Be sure to refer to 'Dr Solomon's special offer - reference 841.' If you are already a CompuServe member, enter **GO DRSOLOMON** to access the Dr Solomon's service on CompuServe.
